Feeding Growth, Nourishing Communities Since 1990 Established in 1990 by Shri Sushil Pamnani, “Sushil Trade Com Mandla” has evolved from its humble beginnings as an oil mill into a trusted manufacturer of both high-quality cattle feed and premium corn grits. What began with a single cold press expeller has grown into a multi-faceted operation, driven by a commitment to quality and a spirit of innovation. In the year 2000, we expanded our focus to address the crucial needs of the agricultural sector, transitioning into cattle feed manufacturing. This remains a vital part of our business today, reflecting our long-standing dedication to supporting livestock farmers and ensuring the well-being of their animals. A new chapter began in 2012 when Devwrat Pamnani, armed with an MBA in Marketing and experience in the dynamic Bangalore market, joined the company. His expertise injected fresh perspectives and a drive for growth. This vision culminated in a significant expansion in 2019.

We invested in a new, bigger capacity cattle feed plant and established a brand-new, state-of-the-art corn grits manufacturing plant at our sprawling 2-acre campus. This new facility, boasting a built-up area of 12,000 square feet – a substantial upgrade from our previous 2,500 square foot space – marked our entry into the production of high-quality corn grits. Further strengthening our foundation, 2022 saw the arrival of Satyawrat Pamnani, Devwrat’s twin brother. An IIT alumnus with valuable technical experience gained as a mining officer at Coal India Limited, Satyawrat brought his engineering acumen to our operations, enhancing efficiency and innovation in our manufacturing processes. Today, we stand proud as a company rooted in family values and driven by a passion for excellence.

We leverage our decades of experience in the agricultural sector to produce both nutritious cattle feed and premium corn grits. Our commitment extends beyond manufacturing; we strive to be a reliable partner for our customers, contributing to the growth of agriculture and the nourishment of communities. Our Core Values: Quality: We are committed to producing high-quality corn grits and cattle feed. Reliability: You can count on us for consistent products and dependable service. Innovation: We embrace new technologies and approaches to improve our processes and offerings. Integrity: We conduct our business with honesty and transparency. Community Focus: We are proud to contribute to the growth and well-being of our local community. At “Sushil Trade Com Mandla”, we are proud of our heritage and excited about the future. We remain dedicated to providing quality products and building strong, lasting relationships with our customers.

We are able in handling bulk orders owing to our spacious warehousing and efficient transportation network. Our aim is to cover the whole market by catering to the diverse needs of the clients.

Why Us?

Our organization has the capability to meet the diversified requirements of our distinguished customers. These are the reasons that

Corn Grits

₹ 26/- Kilogram

Corn grits are a coarse flour derived from dried corn kernels, specifically dent corn, which contributes to their starchy texture. The grinding process yields particles that are ranging from a fine to medium grit. Corn grits are essential in the snack food industry, particularly for manufacturing corn puffs and other extruded snacks. The coarse texture of the grits allows for expansion during extrusion, creating the airy, crunchy texture of these snacks. Processing grits into various sizes is crucial to produce consistent puff products. This attribute enables the manufacturing of varied snack products.

Product Details:

Minimum Order Quantity	3/Kilogram
Payment Terms	L/C (Letter of Credit), D/A, D/P, T/T (Bank Transfer), Online Payment
Delivery Time	4 Days
Features	Gluten Free,Good For Health,High In Protein,Natural Test,No Artificial Flavor,No Preservatives,Non Harmful,Organic

Maize Broken

₹ 25/- Kilogram

Broken maize also known as Makka Tukdi, a processed form of corn, is an essential ingredient in the production of popular snacks like corn puffs, corn rings, and the traditional Indian snack, Ponga (Pola). Produced by milling whole maize kernels, it offers unique characteristics that contribute to the texture and flavor of these beloved snacks. We specialize in providing high-quality broken maize in two distinct grind sizes: 2mm and 3mm, catering to various snack manufacturing needs.

Makka Chuni

₹ 22/- Kilogram

Makai Bhardo or Makka Chuni! (That’s like Maize Powder, but with a Indian name!)

Have you ever seen big, yellow corn on a stick? Well, Makka Chuni is like that corn, but it’s been put in a super-duper blender and turned into a yellow powder! We take the whole corn – every little bit – and grind it up.

It is, ground-up whole corn. It’s like flour, but instead of wheat, it’s made from maize (which is another name for corn!). It’s special food for cows, buffaloes, and other farm animals to help them grow big and strong.
